PYTHON

PROJECTS

CRM App Customer Relationship Management (Backend)

JAVASCRIPT | NODEJS | EXPRESS | MONGODB | MONGOOSE |
NODE MAILER

- Developed a CRM app for accepting customer complaints and managing customer issues throughout the lifecycle.
- Utilized different REST APIs to provide various features, including user authentication and authorization, ticket creation, ticket manipulation and admin services.
- Additionally, the CRM app has integrated with a notification service, so entities receive notifications when tickets are created or updated.

Movie Booking App (Backend)

JAVASCRIPT | NODEJS | EXPRESS | MONGODB | MONGOOSE

- Formalized application that allows users to book movies directly from the app and pay online, This assists in pre-booking of movies.
- REST APIs facilitate authentication and authorization, adding and removing movie halls and movies, booking, updating, and cancelling tickets, etc.

E-commerce App (Backend)

JAVASCRIPT | NODEJS | EXPRESS | MYSQL | SEQUELIZE

- Devised an e-commerce app to help customers streamline their ideas and discover products that meet their needs.
- Implemented features such as authentication, shopping carts, filtering and sorting according to price and categories using REST APIs.

PROGRAMMING PROFILE

- [leetcode/sakibde01](https://leetcode.com/sakibde01)

EDUCATION

Diploma Engineering

Ashokrao Mane Polytechnic, Vathar

Electronics & Telecommunication Engg.

 2016 – 2019  score: 81.06%

Secondary (SSC)

Rajarshri Chhatrapati Shahu Maharaj

Highschool, Kolhapur.

 March – 2016  score: 74.60%

EXPERIENCE

Seico India, Kolhapur

 2020 – Present (**Electronics Engineer**)

- Responsible for ensuring that electronic products comply with quality standards by testing systems or equipment.

Relevel by Unacademy (online course)

 9 months- part time

- Learned JavaScript, Node.js and databases while working on the backend platform.
- Worked on Express, MongoDB and MySQL, etc.
- Commenced a variety of projects.

COURSEWORK

- Database Management System
- Computer Network
- Operating System
- Software Engineering

INTERESTS

 IoT with cloud computing

 Robotics

 Listening to audio books
